PROJECTS

- RANDOM PASSWORD GENERATOR
- To Create this Project I was Used Html , Css & Javascript

. A random password generator is one of my project with a combination of letters , numbers , and symbols in a random sequence .
This enhances security by generating complex and difficult to guess passwords. reducing the risk of unauthorized access to accounts or systems.
There is also a button with the help of this button you will copy the password and paste it everywhere

EXPERIENCE

- 3 Months of Internship at Retrod
